

# press bedding wood bales

## **product information:**

**A high quality animal bedding is essential for maintaining the health of valuable animals. It is manufactured using rigorous quality control standards. Our bedding is made from 100% virgin wood particles from only approved mills. Shaving is kiln dried to a moisture content of 10% or less, screened to limit as much dust as possible to promote animal respiratory health and it has a very high absorbency rate. Ideal for use as natural, clean and hygienic animal bedding. Wood shavings are mainly used as animal bedding in the equestrian, poultry, pet industries and can also be reused as organic fertilizer. The final product is of consistently high quality, compressed to tightly fill plastic bags for maximum product density and easy handling.**

## **Features:**

**Structure / large bale**

**Highly absorbent**

**Dust less than 8%**

**Soft, cushioning**

**Economical in use**

**100% from natural wood**

**Free bacteria**

**Redaction of deceases**

## **packging:**

**container 40 feet HC 1245 bales**

**bales weight around 25kg**
